

IT PRICE SHEET

<u>Monthly Fee</u>	<u>System Count</u>	<u>System Updates</u>	<u>Threat Response</u>	<u>Outage / Emergency Response</u>
\$1000	0-5	Weekly	With 2 hours	Within 2 hours
\$600	0-5	Every 2 Weeks	Within 24 hours	Within 24 hours
\$350	0-5	Every 2 Weeks	At Update Time	At Update Time
\$250	0-5	1 time / month	At Update Time	At Update Time

System Updates: Includes Patching, General health check, Capacity analysis & notification, Best practices configuration, New package install and configuration, etc.

Threat Response: As new security threats are discovered, detection, analysis, mitigation, and defense measures should be taken. This covers all activity necessary to defend against new threats. Threat response means that there will be significant steps taken to protect your infrastructure within 2 hours of publicly-available patches and mitigation steps. Downtime requirements may apply, so mitigation may be scheduled for a later time at the client's discretion.

Emergency Response: Systems support for outages or product stoppages.

ADDITIONAL SERVICES
